

Hello,

My name is David Snell and I own Starlight Flight. Please review the following directions to the terminal we use at Addison Airport. Attached is a screenshot of Google Maps showing Keller Springs Road to Landmark Aviation.

Directions to Landmark Aviation

**4553 Jimmy Doolittle Drive Suite 1
Addison, TX 75001**

1. Take Dallas North Tollway and exit Keller Springs road. (Keller Springs is several miles north of 635 just north of Beltline rd exit) OR just a few miles south of the George Bush freeway where it crosses the tollway)
2. Turn left on Keller Springs road: 1. (if you were driving north on the tollway from 635) OR 2. (turn right on Keller Springs if you were driving south on the tollway) (west on Keller Springs is what you want to do!)
3. Take Keller Springs to Addison Road (traffic light)
4. Cross the intersection at Addison Road (staying on Keller Springs) and make an almost immediate "dog leg left hand turn". YOU will see left hand turn lane immediately after crossing Addison Road. Once you make left turn across East bound lane of traffic on Keller Springs look to your right and you will see Jimmy Doolittle Dr. **DO NOT GO STRAIGHT INTO THE ADDISON TOLL TUNNEL. When you cross over Addison Road.....you go only a few car lengths before making this left hand turn across the east bound lane of Keller Springs. Just as soon as you cross Keller Springs Jimmy Doolittle will be in front of you to the right. LOOK straight back and see the large address of 4553 and the name (Land Mark Aviation) on the building a few hundred yards down Jimmy Doolittle. LOOK for illuminated BP Fuel sign on hangar at the end of Jimmy Doolittle on the right side of the street. Entrance to building is almost under this lighted sign.**
5. Continue on Jimmy Doolittle Dr and turn into the parking lot of Landmark Aviation.
6. Park outside building and the entrance is clearly marked on the south end of the large building.

We will be in the lobby waiting for you when you arrive. Otherwise we will call you if some circumstance on the ground has created a slight delay for us!

Please let me know if you have any questions.

PLEASE CALL MY CELL DAY PRIOR TO YOUR FLIGHT TO RECONFIRM OR IF LOST OR ANY ADDITIONAL QUESTIONS

Thank you,

David Snell

Owner

CELL 469-767-2645 (Please rsvp/reconfirm your flight date/time) at least 24 hours prior to flight)

cell 469-767-2645

P.S. Reminder: You only drive a few car lengths west of the Addison rd intersection on Keller Springs when you make the immediate left hand turn across Keller Springs to Jimmy Doolittle!! (What if I do go in the tunnel under the airport?) IF you go in the tunnel you have to go to the west side of the airport and turn back east on Keller Springs (drive back under the airport headed east) and just before you come back to the traffic light at Addison rd, the turn would then be on your right about 4 car lengths prior to Addison rd!
